

WHY PARTNER WITH CENTURY

Merging best-in-class payment processing technologies with honest, friendly service, Century Payments is bridging the gap between a static financial industry and a dynamic customer-driven market. For small and mid-sized businesses needing reliable credit card processing, we're powering a brighter future with flexible terminals and point-of-sale solutions. For bold brands looking for new or enhanced revenue streams, we're breaking new ground with our partner program.

Our mission is to be the most trusted provider of merchant services to small and medium-sized businesses. We do this by utilizing unique, integrated payment partnering models, investing in the most progressive payment technologies, and delivering exceptional personal service and support. This translates into powerful results for our stakeholders, and more importantly, creates a company you can feel proud to partner with and we can feel proud to work for.

Founded by industry veterans who understand the unique payment processing needs and challenges of today's small to medium-sized merchants, Century partners with Financial Institutions, POS Resellers, and Referral Partners to deliver the most progressive, automated payment technology that's also easy to use and implement. Although our solutions are second to none, we think it's our unwavering commitment to honest, friendly service that has helped position Century as completely unique.

Thomas Spann, NCR

"Partnering with Century Payments has proven to be one of the best business decisions we've ever made."

A PROVEN HISTORY OF SUCCESS

REASONS TO PARTNER WITH CENTURY

■ Dedicated support

Century provides outstanding customer service. Your dedicated account executive will work closely with you to ensure you are well trained and to help address all questions and help you grow your merchant portfolio and revenue. We will work with you to design sales and marketing programs to help take your business to the next level.

■ Actionable data with unparalleled reporting

No other processor in America can match our graphic intensive reporting for both your business and merchants.

■ Flexible Program Options

Century has the ability to meet your specific requirements and will provide the type of merchant card processing program that will best meet your customers' needs.

■ Industry Savvy Leadership

Century Payments is run by a team of payments industry veterans, with over 100 combined year of experience. At Century, we have the experience and vision you need to run a successful program.
